

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior version, and listings, of claims in the application:

Listing of Claims:

Claims 1-5 (canceled).

6. (New) A device in a vehicle for monitoring the environment around the vehicle, comprising:

an environment sensor system having a predetermined detection range; and

an analyzer module for analyzing a signal of the environment sensor system,

wherein the analyzer module selects and tracks at least one object in the predetermined detection range as a function of at least one predetermined parameter.

7. (New) The device as recited in claim 6, wherein the at least one predetermined parameter includes one of a relative speed between the vehicle and the at least one object, a direction of the relative speed, a curve radius, and a type of traffic.

8. (New) The device as recited in claim 7, wherein the analyzer module is connected to at least one restraint unit associated with the vehicle, the analyzer module triggering the at least one restraint unit as a function of tracking of the at least one object.

9. (New) The device as recited in claim 8, wherein the at least one restraint unit is a reversible-type restraint unit.

10. (New) The device as recited in claim 9, wherein the at least one restraint unit is one of a reversible seatbelt tightening system and an extensible bumper.
